

Rottweiler 31 Junior

Weaning > 18 months

Muscle Building

The growth of a Rottweiler puppy is a long, intense period, lasting approximately 18 months. ROTTWEILER 31 provides controlled levels of energy and calcium for optimal growth and the development of the skeleton. Strong, healthy muscles develop with the help of high quality LIP proteins and L-Carnitine.

Targeted Digestive Safety

Prebiotics, psyllium and the use of LIP proteins for optimum digestive tolerance.

Joint Development Support

Increased levels of EPA, DHA, chondroitin and glucosamine assist with joint development.

Strong natural defences

A patented complex of antioxidants helps to strengthen the puppy's natural defences.

Ingredients:

rice, dehydrated poultry meat, vegetable protein isolate*, maize, animal fats, dehydrated pork protein*, minerals, hydrolysed animal proteins, vegetable oils (soya and copra), vegetable fibres, beet pulp, fish oil, psyllium husks and seeds, fructo-oligosaccharides, sodium polyphosphate, L-lysine, hydrolysed yeast (source of mannan-oligosaccharides), taurine, DL-methionine, hydrolysed crustaceans (source of glucosamine), marigold extract (source of lutein), L-carnitine, hydrolysed cartilage (source of chondroitin).

*L.I.P. (Low Indigestible Protein): protein selected for its very high assimilation.
